

Dr. Fowler's

Extract of Wild Strawberry is a reliable remedy that can always be depended on to cure such ailments as indigestion, colic, cramps, diarrhoea, dysentery, and all looseness of the bowels. It is a pure

Extract

containing all the virtues of Wild Strawberry, one of the safest and surest cures for all summer complaints, combined with other harmless yet prompt curative agents, well known to medical science. The leaves

of Wild

Strawberry were known by the Indians to be an excellent remedy for diarrhoea, dysentery and looseness of the bowels; but medical science has placed before

Strawberry
a complete and effectual cure for all those distressing and often dangerous complaints so common in this changeable climate.

It has stood the test for 40 years, and hundreds of lives have been saved by its prompt use. No other remedy always

ODD IDEAS.

SOME TITBITS OF HUMOR.

Queer Answers Given at the Recent Examination for Entrance to the High School.

A gentleman who has been some of the ridiculous, was allowed to look over some of the papers of the candidates who wrote answers to the High School at the examinations last month and has called the following from them. It is not to be understood that those whose names we published were none of them the ones from whose papers the extracts were taken.

In the English literature paper, the poem was Tennyson's well-known "The Charge of the Light Brigade." In which are the lines: "Firing on false pride in places and power."

The divine candidate was asked to explain what was the meaning of "false pride." The candidate replied: "The people fighting, swearing, &c."

"Survival of the Fittest"

That business will best succeed which is conducted on the fairest principles. During these terrifically dull times "which try men's souls," we want you to know that we are not for one moment forgetting those sterling qualities which are needful to our permanent success. As a result we do not offer goods from our great stock at less than cost but always figure on close margins of profit, and remember we place before you a stock of clothing superior to any in Belleville. Some unscrupulous dealers will tell you our goods are shoddy, etc., or we could not sell them so cheap. Once before we offered to donate \$500 to any charitable institution in Belleville for honest goods our stock is surpassed in Canada. We again make this offer and if our competitors who cry shoddy! would only accept this challenge the public would soon see who carries the best goods. Furthermore we will donate another \$500 if we can't prove we have lowered the price of clothing at least 33 per cent since opening here, and this is our strongest guarantee that we conduct our business on honest principles. For the next 60 days we are going to hold a big

—SLAUGHTER SALE—

It is our intention this fall to manufacture all our own goods here in Belleville, thereby giving our patrons a chance to have their goods made to measure at the same cost as ready to wear garments. And in order to clear out our present stock and prepare for this we will sell goods at the following prices for the next 60 days:—

Boys' Kicker Pants lined, for.....	39c	Youths' \$9 Fine Suit for.....	\$6 00
\$5 Two-piece Suits for.....	\$3 00	" \$7 " " " " " " " " " " " "	4 75
" \$4 " " " " " " " " " " " "	2 75	" \$6 " " " " " " " " " " " "	4 00
" \$3 50 " " " " " " " " " " " "	2 00	" \$5 " " " " " " " " " " " "	3 50
Men's \$18 00 West of England Tweed Suit for.....			\$12 00
15 00 Scotch Tweed Suits for.....			10 50
12 00 " " " " " " " " " " " "			8 75
10 00 All Wool Suits for.....			6 90
8 00 " " " " " " " " " " " "			5 00

In a word we have taken the bit in our teeth and for the next 60 days will hurl the staunchest qualities unobtainably against the sharp rocks of reduction. Buyers, isn't it dollars in your pockets to take advantage of this great sale now?

A GOOD INNOVATION.

ALLOWING PRISONERS TO TESTIFY IN THEIR OWN BEHALF.

Judge Frick Dismisses the Recent Legislation in That Behalf—He Carefully Reviews the Reasoning—And Finds It Just And Proper.

Judge Frick was asked by the INTELLECT to give his opinion as to the new statute permitting prisoners to give evidence in their own behalf. The learned judge expressed himself as follows:

To allow a prisoner to give evidence in his own behalf is a new principle introduced into our criminal procedure, although not a novelty in criminal matters, for this principle has been admitted and acted upon for some years in several countries in Europe.

A prisoner, if guilty, may not very easily avail himself of this privilege, because his statement will be readily exposed to detection under the searching cross-examination of the Crown counsel, or the county attorney, as the case may be, all of whom are, as a rule, able men.

On the other hand, if the accused is not guilty, he will be able to explain away certain facts and circumstances which may appear to be against him, and pointing towards his guilt.

"It must be borne in mind that an innocent person may be charged with a crime, and secretly locked up, while detectives, constables, reporters for newspapers, and others are running every place, every house, every trifling fact or circumstance which is used to establish, not his innocence, but his guilt.

"In this connection, I may perhaps be permitted to quote the words of one of our ablest commentators upon the law of evidence. I cite from Taylor, Blackstone edition, page 100.

"With respect to policemen, constables, and others employed in the apprehension and detection of crime, their testimony 'against a prisoner should be generally watched with care, not because they are not honest, but because they are not disinterested, and their professional bias, fed as it is by an habitual intercourse with the police, and by the frequent contemplation of human nature in its most revolting form, almost necessarily leads them to ascribe motives to the worst motives, and to give a coloring of guilt to facts and conversations which they, perhaps, in themselves, are not disposed to do.'"

"Consistent with that all men are guilty till they are proved to be innocent, it is naturally the creed of the police; but it is a creed which finds no sanction in a court of justice."

Again, at page 88: "Something occurs to raise a suspicion against a particular party, and the police officers, who are not disinterested, and whose professional bias, fed as it is by an habitual intercourse with the police, and by the frequent contemplation of human nature in its most revolting form, almost necessarily leads them to ascribe motives to the worst motives, and to give a coloring of guilt to facts and conversations which they, perhaps, in themselves, are not disposed to do."

"Something occurs to raise a suspicion against a particular party, and the police officers, who are not disinterested, and whose professional bias, fed as it is by an habitual intercourse with the police, and by the frequent contemplation of human nature in its most revolting form, almost necessarily leads them to ascribe motives to the worst motives, and to give a coloring of guilt to facts and conversations which they, perhaps, in themselves, are not disposed to do."

"Consistent with that all men are guilty till they are proved to be innocent, it is naturally the creed of the police; but it is a creed which finds no sanction in a court of justice."

BALTIMORE, TUESDAY AUG. 15

WHO WERE THE BOODLERS?

Allegations of the plot of the Grit party read very fully in the light of the following extract from a letter written by the late Hon. Alexander Mackenzie a short time after his accession to office, when he was at the head of the Public Works Department. Friends expect to be benefited by those who are not, by contrast they are not entitled to be deceived. Mackenzie was a man who was with friends, and push the friends to the front. Some attempt to storm the office. Some the friends at a distance and approach in person. Some, I feel like the boodler, bring on my arms and night. I have friends at least twenty parliamentary friends by my defense of the Grit.

The remarkable description of the trouble of the Minister are given, has already seen the light of day. It has been referred at this time for the purpose of a discussion touching the relative merits of the Conservative and Liberal parties. The Conservative maintain that all the Mackenzie's testimony the Liberal are all boodlers. The Liberal reply that all the Mackenzie's testimony that a wandering brood of political boodlers, men who float from one side to the other as circumstances dictate, pursued Mr. Mackenzie for what they could make out of the country with his pocket full of money.

The plot of the Grit, thus exposed by the man who was too honest to be related by them as their leader, is ingenious, but impotent. The last sentence alone quoted from Mr. Mackenzie's letter, shows the affinity of the boodler. Nobody can be led to believe that the "parliamentary friends" whom Mr. Mackenzie estranged by his denials were Conservatives or honest Grits seeking disinterestedly for Tory boodlers.

The people will not allow the boodler to be pulled over their eyes in any such manner.

The Chinese pay their doctor only as long as he keeps them from dying. They believe in preventing rather than curing disease. This is sound sense, and one of the strongest recommendations of Dr. Williams' Pink Pills, a medicine which not only cures disease but prevents them.

The Ladies Delighted. The pleasant effect and perfect safety with which ladies may use the Liquid Fig Syrup, Syrup of Figs, under all conditions makes it their favorite remedy. It is pleasant to the eye and to the taste, and is effectual in setting on the kidneys, liver and bowels.

A Severe Affliction.

The many friends of Mrs. J. P. C.
Phillips will learn with deep regret that
the consultation which she has had at To-
ronto as to her eye, shows that she has
lost the sight of one eye, and that she may
lose the other eye. The course of treat-
ment has so unfavourable, that she can
not expect recovery.

A Difference in Clothing.

There is no doubt but some clothing
houses think of nothing but getting the
money out of the pockets of their custom-
ers. It returns they give shoddy, cheap
hitting suits and laugh at you if you go
back to them. The Oak Hall is a different
great reputation by keeping only the best
clothing. This reputation we will guard
jealously.Haro's excursion to Kingston Friday
next. Fare 50c., steamer leaves 6:30 a.m.

The Remiers Piano Sold.

To the Editor of the Intelligencer.

DEAR SIR:—We are informed that rumors
are maliciously being circulated in Belleville
that, in consequence of the stock company
of the original Remiers Piano Co., Ltd., To-
ronto, old pianos are being worn out, and
that more "B-stump" pianos will be made.
These rumors are false in each particular.
The truth is that we bought in the factory
appliances and undisturbed for many
years, and have been for some time
making pianos."Remiers" pianos. Further, we are orga-
nizing and taking a financial interest in
a large manufacturing stock company, by
the manufacture of the instruments in ques-
tion. Our factory is going at full force and
orders are coming in to which we are only
justifying but in excess of our most sanguine
expectations. The "Remiers" piano has
come to stay, and can be bought in
Belleville from the warerooms of Mr. W. B.
Riggs. Thanking you in advance for your
courtesy in giving the public the truth, we are,
Yours truly,

Children Cry for Pitcher's Castoria.

for British but for the beloved Dominion
of ours. For this, once the land of free-
dom, is fast going back to the thralldom of
pope. It is not true!Those of you who have read the history
of the R.C. Church know that Romanism
is any man for public life, or for a
true and faithful R.C., because its allegi-
ance is first given to him who is enthroned
on the banks of the Tiber.And the cloud, dark, black and thick, is
fast spreading itself over us, and you or
your children will in a few years fight over-
-ground on this continent, the banner of As-
suredly and the battle of the Bays, and we
are responsible for it.Mr. Wm. Johnson, Past Grand Master
of Ontario East, made a happy speech.
He was present the host that was as
original Frontenac Boy. The badge on his
shoulder had been placed there seventeen
years ago. Derry by the desecration of
these brave defenders of the gate. He had
assisted in four celebrations in Derry.He looked with astonishment on those who found
the order for political purposes and he ad-
vised people to make a stand in the name
of the order. The speaker described the
city of Derry and exhibited a piece of stone
from the wall of the city of Derry.In 1617, at a cost of about \$43,000,
and was a mile in circumference.
It varied in height from 10 to 15 feet,
while it was twenty four feet high. Al-
though it was besieged by 20,000 men, it
was not taken. It was a piece of a population
within the city of 20,000 only 300 had been
soldiers, while not more than 10,000 were
able to bear arms. At that time Ireland
had a population of 1,000,000 Catholics and
500,000 Protestants. When James II came
over from France he had not anticipated
any obstacle in his march through Ireland,
Scotland and England, where he expected
to drive King William from the throne, but
he met opposition at both ends of the
road. He was a man of great power and
Derry during that memorable siege 10,000 died
of starvation and disease, while the rest
lived on mice, rats, cats and horses, the
price of which had reached fabulous rates.This was the end of the "Liberty bell,"
in conclusion he took leave with Rev. Mr.
Wilson that Popery was in the ascendancy.
There was a splitting of the party over on
side beyond all political power. No matter
what political party ruled so long as the
people remained true to their God.Rev. Mr. Cameron, Chaplain of Brook-
ville Lodge of True Blues, made a stirring
address. He said that he was a true Blue
and he was a true Blue in the second sense
as long as the people remained true, but he
was a question in his mind if the people
were true. He believed that the chances
for the ascendancy of popery were about
100 to 2. The treasury of James II. when
he threw away his crown—the brother of
two former Kings, and the son of a King,
with the blood of forty kings in his veins—
was an illustration of the power of the
Popery. He had everything to lose in
throwing away his crown, yet he did so for
Rome. He called on Orangemen, Protestants
and True Blues to stand up for their
rights at the polls. The Roman Catholic re-
ligion dishonored the Bible. It was the
law of their church that the Bible should
be closed, unless the permission of the
priest was secured. He was opposed to
Roman Catholicism for political reasons.
A Roman Catholic could not be a true or
loyal subject and be true to his religion.
The speaker was willing to meet any man
from Archbishop Cleary (down or up) in
defense of his statements that Roman Catho-
licism interfered with our school
system. He closed with cheers.Rev. Mr. Hall, Chaplain of the Montreal
Frontenac Boys, concluded the speaking by
a spirited address.

THE GAMES.

The games and sports were successfully
conducted, under the supervision of
Mr. R. H. Ketchum, with Messrs. W. B.
Northrup, M.P., and P. W. Hudson, M.P.,
as judges. The entries in each event
were numerous, and the contests keen. But
one accident happened, namely in the
one mile bicycle race, in which one of the
lads, Cammings and Lockett, collided, hap-
pily without serious result to either.The record of the afternoon was
as follows:Standing Jump—J. Nares, F. Boitler,
W. Thibault.Running Jump—Lovers, 18 ft. 11 in.; Ivers
17 ft. 10 in.; Thibault, 17 ft. 6 in.

200 yards race—Fillon, Nolan, Ivers.

200 yds. Frontenac Boys—Hall, Armoury,
S. Thompson.Bicycle race, 1 mile—Roy, H. Greenleaf,
Orangemen's race—H. Putnam, A. Hart,
A. McMaster.

200 yards race—Fillon, Nolan, Ivers.

Two mile Bicycle race—Cummings, Roy,

Cummings, W. Corbett.Half mile race, open—Putnam, Morry,
Fitzroy.Bicycle race, 2 mile handicap—Cummings,
Lockett, Greenleaf, Roy.A baseball match between Campbellford
and Belleville for a prize of \$20 was on
the program. The former did not appear,
some prepared to play ball, but, as the
home team was on the ground, they got
under a shower of stones and were driven
to other places. The Belleville boys had
an easy task, as the score—11 to 1—was
made in the first inning.Following are the names of the boys who
played: Campbellford—A. Senior, O. Clouston,
J. Ivers, J. Davis, G. Nolan, — Green, F.
Duffy, — Gillis, — Davy.The games were concluded at six o'clock
and everybody left the grounds well pleased
with the afternoon's entertainment.

NOTES.

Mr. Wm. Anderson, P.G.T., of British
America, was amongst the Orangemen
visitors. The ladies of the Tabernacle had 400
to dinner and 125 to supper at their refresh-
ment stand in the store north of Ald.
The Y.P.S. of Emmanuel church had
equally as good success in their restaurant
near the Lyric theatre.The Belleville band made a favorable
impression, both as to their music and their
uniform.The dry grass becoming ignited on the
top of the hill, the danger of a fire was
duly and grain building was threatened.
By the prompt action of Wm. Johnson the
danger was averted.The engines attached to the express
trains yesterday were gaily decorated.The Wellington Baiter, Esq., County Mas-
ter of the County of Grey of Prince Edward
Island, was a guest of the Orangemen.It was he that organized the
great excursion to the Falls of the St. Lawrence.
He showed at the front of the Prince
Edward contingent.The Orangemen, for many years, a
card, born by six members in white gown,
was carried in the procession.To the old time of a real soldier of the
day, when every Orange Lodge appeared
with its rank, and private—one of the
most notable of the day, when the law
just as some have thought of leaving the
flag or war in the ranks seemed to enjoy
more his position than in A. Donaghy, Esq.,
No. 274, his stop was as quick and his
the next morning, for that matter, he was
heard him moving like a wind.

The police report a quiet day.

"Survival of the Fittest!"

That business will best succeed which is conducted on the fairest principles. During these
terribly difficult times "which try men's souls," we want you to know that we are not for one
moment forgetting those sterling qualities which are needful to our permanent success. As a rule
we do not offer goods from our great stock at less than cost, but always figure on close margins
of profit, and remember we place before you a stock of clothing superior to any in Belleville.
Some unscrupulous dealers will tell you our goods are shoddy, etc., or we could not sell them so
cheap. Once before we offered to donate \$500 to a very charitable institution in Belleville for if
honest goods our stock is surpassed in Canada. We again make this offer, and if our competi-
tors who cry shoddy! will only accept this challenge the public would soon see who carries the
best goods. Furthermore we will donate another \$500 if we can't prove we have lowered the
price of clothing at least 33 per cent. since opening here, and this is our strongest guarantee that
we conduct our business on honest principles. For the next 60 days we are going to hold a big

SLAUGHTER SALE

It is our intention this fall to manufacture all our own goods here in Belleville, thereby
giving our patrons a chance to have their goods made to measure at the same cost as ready to
wear garments. And in order to clear out our present stock and prepare for this we will sell
goods at the following prices for the next 60 days—

Boys' Kicker Pants lined, for.....	39c	Youths' 9 Fine Suit for.....	\$6.00
" \$5 Two-piece Suits for.....	\$3.00	" \$7 " " " " " " " "	4.75
" \$4 " " " " " " " "	2.75	" \$6 " " " " " " " "	4.00
" \$3.50 " " " " " " " "	2.00	" \$5 " " " " " " " "	3.50
Men's \$18.00 West of England Tweed Suit for.....	\$12.00		
" 15.00 Scotch Tweed Suits for.....	10.50		
" 12.00 " " " " " " " "	8.75		
" 10.00 All Wool Suits for.....	6.90		
" 8.00 " " " " " " " "	5.00		

In a word we have taken the bit in our teeth and for the next 60 days will hurl the staunch-
est qualities unhesitatingly against the sharp rocks of reduction. Buyers, isn't it dollars in your
pockets to take advantage of this great sale now!

THE COUNT SURVEYORSHIP.

Mr. H. G. Blesker, of Sidney, Receiver the
County of Frontenac.There have been many applicants for the
office of County Surveyor and Grave Road
Superintendent, which was left vacant by the
death of the late Timothy Farham, and
much interest was felt in the meeting of the
Gravel Roads Committee yesterday for the
purpose of filling the vacancy. The
applicants were Peter Vanklick, J. N.
Sturley, H. G. Blesker, Henry and Wm.
Farham, Mr. Pross and John Cawley.
The committee sat for about two hours,
and after a long and careful consideration
the majority declared in favor of Mr.
Henry G. Blesker, of Sidney, who was for
some years Receiver of the township and
as Warden. It is understood that Mr.

Fire on Wharf Street.

A fire broke out in Robt. Wilson's house
on Wharf street about two o'clock this
morning. The cause of the fire is unknown,
but Mr. Wilson thinks it was the work of
some malicious person. The building was
one of some malodorous premises. The
house was insured for \$400 which will cover the loss.

Flames in Sidney.

Hon. Robert Reid set fire to a stump
yesterday, and as a result the fire spread
and was soon beyond control. It was
the few that were left on the place. It
burned in its way the funding on
acres of his farm, besides a portion of Mr.
R. J. Graham's fence before it was sub-
dued, late in the night.

THOSE SEALING REGULATIONS.

UNSATISFACTORY TO BOTH CANADA AND THE STATES.

Mr. John Thompson opposed them as the

August Rights of Peoples—Opinions on

the Award.

London, Aug. 18.—(Telegram special.)—

In an interview with the correspondent of

the Evening Telegram yesterday Sir John

Thompson stated that no power was given

to the British Sea Court of Arbitration to

award financial damages. A question of

right had been decided against the United

States. Several weeks discussion had

been held on the demand of the United States

claim for the total abolition of pelagic

rights on the subject, and after the public

arbitration Court, arbitrator for Sweden,

and Baron de Courcel, for France, drew up

a report of regulations far more severe

than those eventually adopted. When the

award was eventually made, the United

States was not satisfied.

The American arbitrator, the Premier

of the United States, declared that he

UNPUNISHED AS USUAL.

The Ontario last night published a letter under the caption of "Exposition World," which is ostensibly an attack on Mr. Wm. Johnson, but in reality a feeble attempt to injure Mr. Corby, the representative of this constituency. The writer attempts to mislead the public by stating that "the Government have increased Mr. Corby's license to distill from 80,000 gallons per annum to 120,000 gallons."

PROGRESS IN ENGLAND.

The British Medical Journal, a leading magazine of its class, says: "A reduction of fully £250,000 in the amount expended in intoxicating liquors in the United Kingdom in 1892, and a government bringing before Parliament a local option bill, are indications of the increased temperance which is being taken in the land."

A Toronto Boy Falls Off His Bicycle and is Injured.

TORONTO, Aug. 18.—With a smile of childish glee on his face 12-year-old Arthur Wharf, plumed to his death off his bicycle, fell from a high cliff at 204 Dundas-street and Wilfrid was his eldest son. Yesterday morning Wilfrid and Frank Strachan, who live at 429 Queen-street west, rode down town on their bicycles. Wilfrid rode along in front. At the foot of Bay-street the wharf met the water and he started to turn his wheel. As he did he stepped on a raised plank. He lurched forward and his right foot caught in the plank. He fell and his head struck the ground. He was killed.

AS TO THE EXODUS.

There are those amongst the Griot editors who presume that the people have no memories. The newspapers confounded by mischievous men of that class ignore the fact that there was a very heavy emigration from Canada to the United States under Mr. Mackenzie's rule, and boldly assert that the exodus since 1870 has been caused by the K.P.F. The question is then discussed by the *Gazette Herald*. What is it in the National Policy that has created the exodus? Is it that the number of our working people is less than it used to be before the National Policy was established? We find that, apart from the large increase of miners in the Dominion, and that increase has been great, the pay rolls of persons employed in industries in this country has increased in the last ten years by 112,000 operatives. Has the National Policy expelled operatives from the country when the figures of the census show that the rolls of these industries have increased by 112,000? It is that Canada has been feeling from the country and from its resources under the National Policy? These same figures show that the capital invested in the industries of Canada has increased by \$100,000,000 during the last ten years. Is it that the National Policy has made it harder for the workman to find wages in this country? Would that wages were more abundant and employment still more abundant than it is now? But let us face the figures and we find that in wages \$41,000,000 more are paid at the end of the decennial period than were paid at the beginning of the decennial period, when the National Policy was just beginning. Is it that the protection of these manufacturers and these industries has not added to the public wealth and the public welfare? We find that \$100,000,000 have been the output of the industry of the country during the last ten years.

CONCEIT.

It has been said that if conceited people would judge themselves by what they do, it would lower their high opinion of themselves very much. How little we do that others cannot do better. Then whence the conceit? How silly it is to be conceited about our looks, or clothes, or knowledge. If we clothe ourselves in humility we can gratulate ourselves on our taste, but to be conceited about it—never!

Mrs. Henry Marsden, aged sixty

years, was buried at All Saints' church

centenary, Tyndalton, on the 15th inst.

About seventy-five years ago she, with a

party including her father and betrothed

husband, walked through a dense forest to

Kingston to be married.

Malaria and other malarious in-

fluences are best combated by keeping

the blood pure and vigorous with Ayer's

Sarsaparilla. A little caution in the con-

sumption of Ayer's Sarsaparilla is the best

year-round medicine in existence.

Yesterday's hail and wind storm was the

worst seen in many years. Over two

inches of rain fell in an hour and a

half. Fences and exposed roof-buildings

were thrown to the ground. Bars and

outbuildings never known to leak were

now more protection against the heavy fall

of rain than a sieve. The rains for the past

few days will do a great deal of good to

farm lands.

Geo. L. Stanton received a brief com-

munication from Hon. M. Mitchell, United

States attorney at New York, stating that

his office had not been furnished with any

official information concerning the case of

Mrs. Deacon of Burlington. There seems

to be little doubt that the authorities will

take no action on The World's sensational

story published in the last issue of the

last days ago.

The jurors on duty at the World's Fair

made their report to the grand jury at

Friday. Canada exhibited 113 works of

art in all, and of these five will be awarded

the diploma of the Exposition. The successful

artists are: A. G. Reid, J. A. Fraser, E.

C. V. Reid, Sarah B. Holden, Robt. Harris.

Miss Holden is a daughter of Mr. J. C.

Holden, of Montreal, and a niece of Mr.

Thos. Ritchie, of this city.

Comparing This Year with Last, She Sees

Much to Rejoice Her—She Desires to

Thank Her Many Friends.

Miss J. Y. Singlar, of Belleville, who

several years ago gave up her life to Indian

missions, in her report of 1892 writes

encouragingly of the work in India, where

she is located. She writes:

A year ago I felt the work to be very

heavy and trying, and my constant prayer

was "Establish Thou the work of my hands

upon me, O Lord, and my work shall be

prosperous." And comparing to-day with a year ago to-

day, there is room in my heart for nothing

but thanksgiving. Looking at my life

yesterday, as they came into the church, I

thought that a very good account of the

school might be given in their bright, happy

faces. In number we have not grown very

much. Five have left during the year, in

every case except one on account of removal

from the place. For several months we

had two little girls, little girls, about 8

and 10 years respectively. Their father

was supposed to be dead, and their mother

was a very poor woman. After a time a

rich uncle turned up, paid their fees in

full, and gave a donation for the year. The

father, who had been in the father's school,

and the children were taken to Bony-

be. There were also the English or Eu-

ropean children who come as day pupils

and pay a fee of two rupees a month. I

gave them all a very good education, and

girls who are thirsting more for English

education than religion as proved by their

eagerness to learn. I have been asked by

one of our lady missionaries for six months ago

I gave her a class of five girls and she

proved to be by far the best woman teacher

I have had anything to do with. She has

not only been able to do her work, but has

improved and much happier than she was

at one time. Gauri is supported by the

Descriptive Mission. She was given to me

born of Christian parents, but when I first

knew her she was a dirty, uncared for child

in the orphanage. She was given to me

more than two years ago and was long ac-

knowledged by the others to be the best and

most useful girl in the school. About four

months ago at her earnest request she was

baptized and shortly after, with one of the

other girls, at down at the Lord's Table. Nur-

rie, whose widowed mother is a cripple, is

supported by Miss Colquhoun of Water-

bury. She is a very good girl, and has been

a sum of money sent to Miss Oliver to be

used as she chose by a gentleman in Tor-

onto. The girls' parents are too poor to

pay the full fee.

In the educational part of the work I am

being guided by the curriculum for govern-

ment vernacular schools. In some of the

work we are not yet up to standard in

arithmetic but on the whole fairly good

progress has, I think, been made. Every

Friday we have a written examination and

review of the week's work. The teacher

of the third and fourth classes is a Christian

young man.

While seeking to impart to them secular

knowledge, I have tried to remember that

it is not our chief aim, but that our chief

aim should be well educated, but rather

that they will not grow up mere Christians

in name, but earnest, living witnesses and

workers for Christ.

We have had throughout the year, the

blessing from 1 to 10. When we began, we

had 10. The Epistles I thought it would be so

that the lessons interesting to the chil-

dren. We have had a Bible school, and

with some of St. Paul's letters, the girls

being eager to look up references, etc. Be-

sides the Bible school, we have had a

Old Testament history and the smaller ones

"Pope of Day" as part of their school work.

est of their work, and the smaller ones

are doing very well. The girls are very

A NARROW ESCAPE.

W. J. WILSON, ACCOUNTANT, WAS STRUCK BY AN ENGINE.

His buggy smashed to atoms—Rendered Unconscious—Was Compelled to Walk to the City This Morning.

W. J. Wilson, accountant, who resides on Church street, had a narrow escape from a terrible death early today. He was struck by a big engine from the street car, and was thrown into the air. He was struck on the head by the engine, and was rendered unconscious. He was then carried to the hospital, where he was treated for several hours. He is now recovering from his injuries, and is expected to be discharged in a few days.

SUMMER STORM.

A North Wind Blew Fairly and Drove Some Damage.

The gentle south east breeze, with rain, which set in about 4:30 yesterday afternoon, continued for the night, much to the general satisfaction. The probability indicated winds shifting from west and north, but it was not until after midnight that a change took place. Then the wind backed to the northward and blew a heavy gale, which the rainfall increased in proportion. It did some damage to trees, and the wind was very strong. The rain was very heavy, and the wind was very strong. The rain was very heavy, and the wind was very strong.

MR. A. F. WOOD, M.P., GIVES SOME INTERESTING INFORMATION.

The Experience of Hastings County—Our Successes Should Have Been an Object Lesson to Other Counties—How the System is Worked.

To the Editor of the *Intelligencer*.

In your issue of the 26th inst. you call attention to an error in the *Woodstock Sentinel-Review* referring to some remarks of mine in a communication to your paper referring to the late Timothy Farabee, Esq., of county gravel roads and bridges for the life of many years. The question of building and maintaining the leading roads throughout the county has been a vexed question ever since our municipal system gave councils control of the public roads. Almost at every session of the Legislature, since I have had the honor of a seat in it, has this question not only caused much discussion but the municipal committee have been charged with the consideration of many bills seeking to regulate the relations between County and Township Councils as to the building and maintaining of roads and also to do away with gravel roads. Up to the present, I am safe in saying, there are no bills on the statute books, notwithstanding all the legislation and amendments, that meet the various difficulties that present themselves.

The system adopted in the County of Hastings and worked on for the last 25 years is an object lesson for other counties in the province, and if county papers will take an intelligent interest in the subject, as the *Woodstock Sentinel-Review*, the public mind would get educated in the right way to overcome that any county in this province can have. We have two large gravel roads running through the county, Trent and Moira. This county is one of the largest—it not the largest in the province, but it is one of the largest. It has 26,000 square miles, and in many places the land is rolling and hilly and the soil of all kinds from heavy clay to light sand. The travel over the roads is heavy, and yet I am satisfied no other county has as complete a system of leading roads (gravelled) and so many first class bridges well maintained as the County of Hastings, and growing out of the system kept up at so cheap a rate.

First we have between 300 and 400 miles of county gravel roads. Second we have nearly 300 county bridges—large and small—third we have no toll gates, nor have had for 34 years; fourth, owing to the character of the roads and system of maintenance, they are as passable at any season of the year as another. Now how has this been brought about? and if it can be done under the municipal law in Hastings, why not elsewhere? I can, but the law does not compel councils to assume leading roads, but the decision is left to them. The county of Hastings, taking a broad view of the question, did, and under the system adopted the results are as I have stated.

Briefly the system is as follows: The county appoints permanently a superintendent annually at the first meeting in each year they appoint a Gravel Road Committee composed of experienced men from different parts of the county. This committee selects a chairman, who, with the Superintendent, is the Executive of the committee. The committee reports to the Council. The Superintendent selects men to apply for work, and the committee generally the work, pays the men monthly and keeps the committee posted as to how, when and where work is done and the cost.

The people of this County have gone through all the phases of the different processes of building and maintaining roads—contracts per mile, contracts per road, contracts per section, and so on. They have had all this has been abolished long ago. Free gravel roads are the result. The county has maintained and made the satisfaction and benefit of all interested. I was a member of the committee for many years. I am free to admit that much depends on a good committee, but far more in having the right men to carry out the system. I am a free man to admit that much depends on a good committee, but far more in having the right men to carry out the system. I am a free man to admit that much depends on a good committee, but far more in having the right men to carry out the system.

"Survival of the Fittest!"

That business will best succeed which is conducted on the fairest principles. During these terrifically dull times "which try men's souls," we want you to know that we are not for one moment forgetting those sterling qualities which are needed to our permanent success. As a rule we do not offer goods from our great stock at less than cost, but always figure on close margins of profit, and remember we place before you a stock of clothing superior to any in Belleville. Some unscrupulous dealers will tell you our goods are shoddy, etc., or we could not sell them so cheap. Once before we offered to donate \$500 to any charitable institution in Belleville for the honest goods our stock is surpassed in Canada. We again make this offer, and if our competitors who cry shoddy! would only accept this challenge the public would soon see who carries the best goods. Furthermore we will donate another \$500 if we can't prove we have lowered the price of clothing at least 33 per cent. since opening house, and this is our strongest guarantee that we conduct our business on honest principles. For the next 60 days we are going to hold a big

--SLAUGHTER SALE--

It is our intention this fall to manufacture all our own goods here in Belleville, thereby giving our patrons a chance to have their goods made to measure at the same cost as ready to wear garments. And in order to clear out our present stock and prepare for this we will sell goods at the following prices for the next 60 days:—

Boys' \$5.00 Pants lined, for.....	39c	Youths' \$9 Fine Suit for.....	\$6 00
" \$6 Two-piece Suits for.....	\$3 00	" \$7 " " " " " " " " " "	4 75
" \$4 " " " " " " " " " "	2 75	" \$6 " " " " " " " " " "	4 00
" \$3.50 " " " " " " " " " "	2 00	" \$5 " " " " " " " " " "	3 50
Men's \$18.00 West of England Tweed Suit for.....			\$12 00
" 15.00 Scotch Tweed Suits for.....			10 50
" 12.00 " " " " " " " " " "			8 75
" 10.00 All Wool Suits for.....			6 90
" 8.00 " " " " " " " " " "			5 00

In a word we have taken the bit in our teeth and for the next 60 days will hurt the staunchest qualities unhesitatingly against the sharp rocks of reduction. Buyers, insist it dollars in your pockets to take advantage of this great sale now!

BEHRRING SEA AWARD.

The Canadian Advantage Taken by the Premier.

In an interview on the steamship *Thetis* with an Empire reporter, Sir John Thompson was asked:

"Do you believe that Canada has a right to the Behring Sea?"

"Yes, I do," said the Premier. "She has a right to the Behring Sea, and I will state briefly: By the constitutions of the United States that country would have secured absolute dominion over the Behring Sea for all purposes. It would have established an ownership of the United States in every respect, which reports to the Behring Sea on the ground that, being bordering on the property of the United States, the Government of that country has a right to the Behring Sea."

"The English Bay Market."

All information which our farmers can obtain as to the English situation is required to be of interest and importance. We have already alluded to this matter and this week's exchanges bring us the English situation as to the second crop of hay. In England this is much more important than in Canada. The English situation is as follows: The first crop of hay is now being cut. The second crop is now being cut. The third crop is now being cut. The fourth crop is now being cut.
